

## **Jan PECHSTEIN**

*Responsible Corporate emissions management & Sustainable aviation fuels, Lufthansa Group*

Jan Pechstein (M.Sc.) studied Aviation Systems Engineering and Management as well as Aerospace Engineering in Bremen, Phoenix (AZ) and Berlin. In parallel, he completed the airline pilot training at Lufthansa Flight Training. Besides his studies he headed the local Group of EUROAVIA in Bremen and worked for the Aviation Initiative for Renewable Energy in Germany (aireg e.V.).

From 2015 he researched at Hamburg University of Technology in the field of sustainable aviation with a focus on SAF and is about to complete his Ph.D. Furthermore, he attended an MBA program at the Collège des Ingénieurs.

In the meantime, Jan has exchanged the A320 cockpit for a management job and is presently head of corporate emissions management and SAF at Lufthansa Group.
