

Chair

Alain GARCIA

AAE

Alain Garcia began his career in propulsive systems in Sud-Aviation-Aerospatiale in 1966. He went on to become head engineer for the A330/A340 programme in Aérospatiale in 1986. From 1997 to 2001 he was senior vice-president Engineering at Airbus Industrie then Executive vice-president Engineering, Airbus SAS, until 2007.

He taught thermodynamics and propulsion at ENAC, SupAéro and Toulouse IUT.

Alain Garcia was also a member of the scientific council of ONERA and the administrative council of Dassault Aviation, and founded his own company Novation Aero Consulting.
