

EU initiative Cities Community (UIC2): how to prepare UAM introduction into cities and regions

Andreas RICHTER

*Head of Department “Innovation and Cluster”, Ministry of Economy and Innovation,
Free and Hanseatic City of Hamburg*

Andreas Richter is a lawyer and Head of Department “Innovation and Cluster” for more than 10 years. One of the most important Clusters is Hamburg Aviation, with 40,000 persons employed in the aviation sector of the metropolitan region. Urban Air Mobility is a new field of action within that cluster.

Before, he was – among other things – managing the planning approval procedure for the extension of the Hamburg Airport.
