Marc DUVAL-DESTIN

VP Strategy, Product Policy and Innovation of Thales flight avionics activities

Marc joined the Thales Group in 2012, where he first held engineering responsibilities for avionics before working on the development of innovative projects. He is now in charge of strategy, product policy and innovation for flight avionics activities.

From 2001 to 2012, he was successively responsible for product development within the PSA Peugeot Citroën group before becoming director of innovation. His automotive experience also extends to the field of connected services and ITS (Information Technology Services).

Before joining PSA Peugeot Citroën, he worked for 16 years for the French Directorate General of Armaments, where he was in charge of the Leclerc tank programme.

He is an alumnus of the Ecole Polytechnique and Sup'Aero, and has a doctorate in theoretical physics.
